

NARAYANI

UPGRADE TO THE NEW GENERATION OF AQUA WATERPROOF FLOORING

Flooring That is
Always the
Base of
“Happiness”

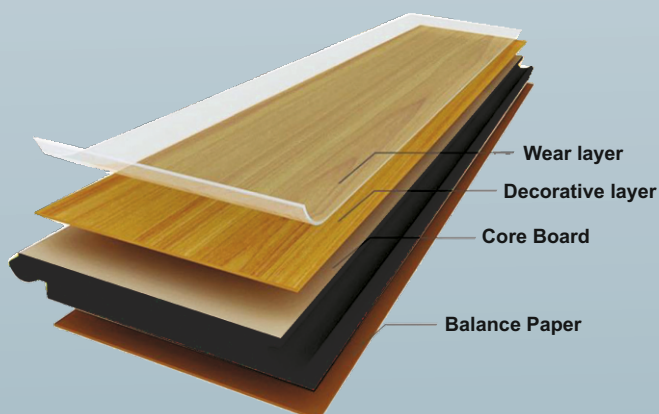

Why it is Waterproofing ?

Its thickness swelling is <4% after 48 hours. in water.
Tested by authority

New	<4% after 48 hours in water
Traditional	<18% after 24 hours in water

The lower thickness swelling value, the better

- Super waterproof laminate flooring, the high density board is carb standard, which its formaldehyde emission is $\leq 0.11\text{ppm}/\text{M}^3$. Its more safe for your comfortable

- HDF with stable and durable quality.
- Unilin Click lock flooring, easy installation.
- Wear resistant & scratch resistant with long life.
- Easy to maintenance.
- Eco Friendly, zero formaldehyde.

HOTES &
RESTAURANTS**

**BEST FOR
SUPERMARKET &
RETAIL SHOPS**

**BEST FOR
RESIDENTIAL**

Easy to clean

Dust Free Installation

Eco Friendly

Fire Resistant

Scratch Resistant

Stain Resistant

Quick Installation

Non-Slip

A man with a beard and short hair, wearing a blue denim shirt, is leaning over a wooden surface. He is holding a square tool against the wood, looking down at it with a focused expression. The background is blurred, showing a workshop or construction site. The lighting is warm and directional, coming from the left, highlighting the man's face and the wood.
